Shepherd College,

Branch of the State Normal School,

SHEPHERDSTOWN, JEFFERSON COUNTY, W. VA.,

For the Year ending June, 1897.

If a father wishes to give his son a legacy that will endure while life exists, let him send him to an institution where he can obtain a practical education, and he will have the satisfaction of knowing that he has given him what is better than houses, lands and farms, or even gold or silver. These things may take wings and suddenly fly away; but this knowledge will last while life and reason exist.—*Horace Mann.*

COURSES.

Two Courses of Study are offered :

The Normal Course, consisting of English, Sciences, Latin, Mathematics, Psychology, History of Education, History, Ethics and Pedagogy, prepares students for teaching in the public schools.

The Academic Course, embracing English, Sciences, Mathematics, Classics, prepares students to enter colleges and universities.

THE NORMAL COURSE.

The design of the Normal Schools is to aid young men and women in their special preparation for teaching, and to train them to become competent teachers for the public schools of the State. With this end in view the student must have high ideals of moral character. He must become so strong that these ideals are to him in life real, true characters after which he models his own.

The student must be aided in forming good habits of thought and study. To investigate for himself he must become self-reliant.

COURSE OF STUDY.

The course of study has kept pace with the requirements of the schools which are to be supplied with teachers.

The course of study requires four years for its completion. The first three years are spent in the study of those branches which are taught in the public and higher schools. During the last year the student is occupied mostly with the studies relating to his profession. At the same time he is required to pursue a course of reading supplementary to the instruction he is receiving in the class-room. Original work in this line is required of him. He must spend some time in teaching under the supervision of the members of the Faculty. By doing he learns to do. The Faculty learn from this work what are his capabilities as a teacher.

ADMISSION TO THE COURSE.

No applicant for appointment shall be appointed by County Superintendent unless he or she be of good moral character, and shall sustain a good examination in reading, spelling, elementary arithmetic, geography and elementary English grammar. Said examination may be made either by the County Superintendent or the Principal of the School which the applicant desires to attend.

No student should enter upon this course until he or she is thoroughly prepared. Lack of preparation will cause unsatisfac-

tory work and slow progress. Some become discouraged because they have not been properly prepared.

APPOINTMENT.

Applications for appointment to the Normal Department of the State Normal Schools shall be made to the Superintendent of Free Schools of the county in which the applicant resides; and said Superintendent shall elect such number as may be entitled to the privileges of the Normal School in his county, subject to the approval of the State Superintendent of Free Schools.

As far as practicable, males and females shall be selected in equal proportion. Male pupils must not be less than fourteen, and the female not less than thirteen years of age.

GRADUATION.

The Board of Regents will confer upon those who complete the Senior Year, with an average standing of 80 per cent, and not below 75 on any one branch, a Normal Diploma, with the title of Normal Graduate. *Provided*, No one shall be graduated who has not attended at least one year continuously.

If for any cause, save incapacity, a pupil may not be able to complete the course in the time prescribed, said pupil may be continued longer in the studies of that year, at the discretion of the Faculty.

Normal pupils who fail to make a standing of seventy-five per cent shall forfeit their State appointments at the end of the term.

Pupils applying for Normal Diplomas shall be examined two weeks before commencement.

The rates of tuition for pay scholars shall be as follows :

Junior Normal Course, per year.....	\$20.00
Middle or Senior Normal Course, per year.....	24.00
Incidental expenses for all students, per session or fraction thereof.....	1.00

Students who have appointments from Superintendents pay no tuition.

NORMAL DIPLOMAS.

To receive a Normal Diploma the student must complete the full Normal Course, and pass an examination on the same equal to 80 per cent of the questions asked. These diplomas are equivalent to number one certificates after the holder has taught three years under a number one county certificate. The State Board of Examiners issues two classes of certificates: first class for twelve years, second class for six years. "The second class certificate shall be issued, upon application, without examination, to the graduates of the State Normal School and its branches, and of the State University, when said graduates shall have presented to the Board satisfactory evidence that they have taught successfully three years in the State under a number one county certificate; two of said three years shall immediately precede the application for such certificate." Such certificate shall be equivalent to a number one county certificate granted by a County Board of Examiners, and shall be valid in any school district in the State.

Academic Department.

This department was added by the Board of Regents in 1885, and is intended to prepare students for a regular college course and to fit them to enter the State University of West Virginia.

The studies of this department may be taken as a special course, or they may be carried along with the Normal Course when they do not interfere with it.

ADMISSION.

The same standard is required for admission to this course as to the Normal Course.

COURSE.

The course requires three years for its completion. The studies of the first two years are the same as those of the Normal Course. Students can pursue both courses at the same time. Those students who have taken the last year of the Normal Course in connection with this course have found themselves well prepared to enter upon the Metaphysical Course of our colleges and universities.

No student falling below a class standing (including examinations) of *eighty per cent* shall be entitled to a diploma.

GRADUATION.

The State Superintendent of Free Schools is authorized to issue to the student completing this course a diploma, which will be received at the State University as equivalent to its Preparatory Course.

Orthography and Composition throughout the Course.

A course of Reading will be given the pupils and will be required.

Art Department.

In this department instruction is given in vocal and instrumental music.

Superior advantages are offered in these branches, progressive and practical methods being employed and every facility offered to aid the student in the work.

In music such technical exercises are given as will develop and strengthen the fingers and insure a correct and clean execution, while the studies and compositions are carefully selected with a view to awakening and stimulating good taste in the pupil.

Since no successful advancement can be made until the pupil is well grounded in first principles, special attention is given to elementary instruction and the constant aim is to lead the pupil by thorough and systematic instruction to an understanding and appreciation of the best music and the proper execution of the same.

This course will require four years for completion. Should the pupil possess marked talent and great energy, it may be finished in less time.

DEPARTMENT OF ELOCUTION.

This year, for the first time, instruction in this important branch was offered to the students of the College. A teacher, a graduate from one of the best schools of oratory, was secured, and the success of the class warrants its continuance. Ample time, at a small cost to the student, will be given for the study.

Total number in class, twenty.

Music Course—The Pianoforte.

FIRST YEAR.

Studies of the first principles of music.

Ward—Jackson's Gymnastics for the fingers and wrist.

Mason's five finger exercises and such studies as will prepare the pupils for classic compositions of the Old Masters.

SECOND YEAR.

Scales—Practical exercises of Czerney, Heller and Loeschhorn with studies of moderate difficulty from Mendelssohn, Beethoven and other good composers.

THIRD AND FOURTH YEARS.

Studies of Heller, Czerney, Berens, Kohler, Kullak's octave school, and advanced studies of Beethoven, Schumann, Chopin, Haydn and Liszt.

TERMS—TWO LESSONS PER WEEK.

Pianoforte.....	\$6.00 per quarter.
Daily Practice.....	1.50 per quarter.

Lessons in Theory will be given for which there will be no extra charge.

The school year will be divided into four quarters of two and one-half months each.

One-half the tuition must be paid at the middle, the other half at the end of the quarter.

No deduction will be made on account of absence, except in case of sickness, when the loss will be shared equally between student and teacher.

Pupils will be charged from beginning of quarter unless special arrangements are made to the contrary.

In the Vocal department, Musical Technique, Correct Vocalization, Sight Reading and Theory, and Practice are thoroughly taught. Special attention given to sight reading.

TERMS—TWO LESSONS PER WEEK.

Vocal Instruction.....	\$6.00 per quarter.
------------------------	---------------------

GENERAL RULES.

The school year shall consist of forty weeks, and shall be divided into three or more terms or sessions to be arranged by the Board of Regents, with the advice of the Principal or Principals of the schools respectively.

The student will be assigned the studies of one class, and will not be allowed, except in special cases, to take a study in advance when there is in his class or any preceding class a study with which he is not already familiar.

When studies have once been assigned a student, they will stand until changed or modified by the Principal. Each student shall have at least three studies.

All fees must be paid per term in advance, and no abatement of tuition will be made for a fraction of a month or for absence, except in cases of illness extending over a month, or for suspension or expulsion.

Pay pupils entering after the beginning of any term or session shall pay only for the remainder of said term or session, pro rata at the above rates.

Pupils shall attend all required examinations of the year, and no pupil shall be permitted to advance without the said examination and who does not attain a standing of eighty per cent, including class standing and examination.

These examinations shall be in writing, or partly written and partly oral, and shall be conducted by the instructor in charge, under the supervision of the Principal.

Pupils applying for Normal Diplomas shall be examined two weeks before commencement.

BOARDING.

The Faculty will allow students to board at such places only as they shall deem proper.

The comfort and welfare of the student is considered.

Persons with whom students board will carry out such instructions as the Faculty may from time to time consider as necessary for the good government of the students.

Crowding a large number of students into small rooms, or the over-crowding of large rooms, will not be allowed. The health of the student must be considered.

Boarding, room, fuel, light, &c., can be obtained in the country at \$10 per calendar month, or in town at from \$10 to \$12 per month—two persons occupying one room. Where the student wishes to occupy a room alone, \$12 to \$15 is asked.

Washing costs from \$1 per month up to the prices of city laundries. Laundries are within easy reach.

It is best for new students to write the Principal in regard to boarding. Students by not complying with this request oftentimes cause themselves unnecessary trouble. New students should upon arrival report to the Principal.

ORIGIN OF THE SCHOOL.

Shepherd College was opened as a "Classical and Scientific School," September, 1871.

February 27, 1872, the Legislature passed an act establishing in the College a "Branch State Normal School." This Normal Department was organized by the Regents, November 21, 1872 ; but owing to changes made in the law the work did not successfully begin until September, 1873.

For twenty-five years the school has been an important factor in the education of the youth of the Eastern Panhandle and adjoining counties, and closes the session of ninety-six and seven with bright prospects for the future.

LOCATION.

Shepherdstown, the oldest town in West Virginia, known in the early history of the State as New Mecklenberg, is situated on the right bank of the Potomac River. It is ten miles from Martinsburg and the same distance from Harper's Ferry, and has a population of about 1,600.

The Norfolk & Western Railway passes through the town and makes connection with the main line of the Baltimore & Ohio Railroad at Shenandoah Junction, six miles south of Shepherdstown.

Mountains and river make the scenery of the surrounding country grand and picturesque. Various places of historic interest are within a radius of a few miles from town. From the tower of the school building may be seen several of the monuments on the Antietam Battlefield.

BUILDINGS AND EQUIPMENTS.

The demand for a larger and more convenient building for Shepherd College was met recently by the State, by an appropriation of \$15,000. A substantial brick edifice has been erected, and is now in use. Its large class-rooms and modern conveniences greatly increase the facilities for good work.

The old building, with its attractive music-rooms and large halls, is used in a part of the work of the school, thus happily blending old associations with new. It is expected that the society halls will soon be provided with new furniture. A still stronger incentive to energetic work will thus be offered, and the spirit of healthy rivalry already existing between the two literary societies will be strengthened.

The school is in possession of a fine library of carefully selected books, continually increasing. The reading-room, an attractive and comfortable apartment, is supplied with the best literature of the day. Every opportunity is given the student to use these valuable aids to education.

The laboratory is equipped with modern chemical and physical apparatus, well adapted to supplement instruction in the scientific department. The nucleus has been formed of a collection of specimens designed to stimulate interest in scientific study.

THE WORK OF THE NORMAL.

The design of the Normal School is to prepare thorough, practical, conscientious teachers for the State, and to send students to higher institutions of learning.

This is done :

1. By giving thorough instruction in all the branches taught in the public schools of the State.
2. By giving instruction in the theory and practice of teaching.
3. By giving instruction in Ancient and Modern Languages, the Sciences, and Higher Mathematics.

Satisfactory evidence of the success of this work is found in the fact that a majority of the schools of this section are taught by Normal graduates who have proven themselves eminently qualified for their high calling, while a large number of our academic students have taken high standing in the colleges and universities of the land.

MORAL CULTURE.

The school is a State institution, therefore non-sectarian. Students are required to attend devotional exercises held each morning in Chapel Hall. The school is greatly indebted to the ministers of the town for their kindness in frequently conducting these exercises.

There are seven churches in the town, to all of whose services students are cordially welcomed.

Great care is taken in the selection of boarding houses for the students. A good moral atmosphere is a requisite and only those places that meet this requirement are recommended. The names of new students are given at once to the pastors of the churches with which they are affiliated.

GOVERNMENT.

Self-government, strengthened and directed by older and wiser heads, is the government of the school.

Students are required to obey the rules and regulations of the school and conduct themselves under all circumstances as ladies and gentlemen, but they are to do these things from a sense of right, rather than from a feeling of obligation. The aim is to inculcate principles of right living and self-control, and thereby develop the true man and woman.

LITERARY WORK.

The Parthenian and Ciceronian Literary Societies afford special advantages in Composition, Reading, Declamation, Oration, Debate and Parliamentary Ruling.

These are all required in the regular course, and it is the duty of each student upon entering school to become an active member in one of the societies. The exercises are under the personal direction of the Faculty.

Rare advantages in practical literary work are given by the publication of the "Shepherd College Picket," a monthly paper edited by the School.

EXAMINATIONS.

Examinations, either written or oral, are held at the close of each term, and are conducted by the teachers in charge of respective studies. Willful absence from examinations is not tolerated, and no student is advanced unless he has passed a satisfactory test on all the branches of his grade.

Reports of the conduct, progress and attendance of the students are sent regularly to the parents or guardian and they are requested to report to the Principal after a careful examination of the standing of the student.

TO PARENTS AND GUARDIANS.

We earnestly ask the co-operation of parents and guardians in securing the best results for the coming year. The teacher may try to guard the student from evil, he may point out the path of right and duty, but without the help of those who are more closely related to that student his efforts will too often fail. See, then, that your child is regular and punctual in attendance; that he spends a reasonable amount of time in the preparation of his school work; that he is provided with funds to pay promptly all necessary expenses and that he brings home his report at the close of each term. If the said report is not satisfactory, diligently inquire into the cause thereof and vigorously second the teachers' efforts to raise that standing.

Attention is called to the fact that all exercises begin promptly on the day stated in the Calendar.

THE ALUMNI ASSOCIATION.

All graduates of the School are members of this Association. "Given under my hand this — day —, 189—,

"A——— B———."

That this may be fully complied with, the said graduate shall annually report to the Executive Committee of the school of which said teacher is a graduate, or make such report until the one year's teaching has been done in the Free Schools of the State.
